POSITION

FIELD SURVEY TECHNOLOGIST

Hobbs, Winter and MacDonald is a Land Surveying firm located in North Vancouver since 1953. We provide advice and technical services in all aspects of surveying and land development to our clients on the North Shore and the Sea To Sky corridor.

Duties:

- Work well with team members.
- Prepare clear and concise field notes.
- Operate Leica Total Stations and Leica Viva GNSS.
- Complete projects under the supervision of a BCLS.
- Work outdoors in various weather conditions.
- Position is full-time with regular working hours from Monday to Friday.

Qualifications:

- Previous survey experience in an urban environment required.
- Degree or diploma from a recognized technical school, or an equivalent amount of practical experience in surveying (or combination of the two).
- Fluent in English and excellent communication skills.
- Valid BC driver's license

At Hobbs, Winter and MacDonald, we offer a competitive salary and medical/dental benefits package. We support you with mentoring and education opportunities to assist you developing your career. If you are interested in joining our team and possess the above qualifications, please forward you resume to:
